Recycling 101

Recycling is the process of taking a product at the end of its useful life and using all or part of it to make another product. The internationally recognized symbol for recycling includes three arrows moving in a triangle. Each arrow represents a different part of the recycling process, from collection to re-manufacture to resale.

But what does all this have to do with you? Well, recycling is a simple way that you, as a consumer, can help out the environment, create a profitable market for recycled goods and help preserve natural resources from being depleted. So...let's get involved

Did You Know?

About 80% of what Americans throw away is recyclable, yet our recycling rate

is just 33%.
